## Timeline: work experience and education

## Work experience

### GEHealthcare / Software Engineer Intern

Jun 2024 - Aug 2025, Hungary

As one of three core developers, I made a major impact on a Customer Onboarding Tool, taking it from PoC to MVP and then to Milestone 1. I worked across the full stack (Go backend, TypeScript frontend), enhanced internal engineering tools via REST API integration, and gained end-to-end experience in enterprise software development, from design and implementation to testing and deployment.

### Taboola / Algorithm Engineer Intern

Sept 2023 - Jan 2024, Hungary

At Taboola, the world's largest discovery platform, I worked on the e-commerce recommendation system and developed in-house solutions for various challenges.

### BitKnights / Junior ServiceNow Developer

Jun 2022 - Sept 2023, Hungary

I secured this job in my first year of university after an interview that came about due to a mix-up on my resume—they thought I was in my second year. I ended up acing the interview and was hired. I'm still proud of that to this day.

---

## Education

### ICT Innovation

Spet 2025 - Now, Finland & Greece

I'm pursuing a double degree in Autonomous Systems and Intelligent Robots at Aalto University and Marine Robotics at the University of the Aegean through the ICT Innovation program.

### Eötvös Loránd Tudományegyetem

Sept 2021 - Dec 2024, Hungary

I completed my BSc in Computer Science at ELTE, with a semester abroad at Åbo Akademi University in Finland through the Erasmus program.

---

## Skills

I generally work well with everything and learn quickly.

I have previous work experience with: Go, React, Docker, Java, Python, Kubernetes, Typescript, ServiceNow

I'm fluent in english, beginner in finnish and native in hungarian

---

## Highschool awards

In 2017 I won a national math competition in Hungary.

Since 2018 I've been a leader at 121. Dr. Vetéssy Géza scout troop.

In 2021, I won 4th place at an "innovation competition".

---

## About me

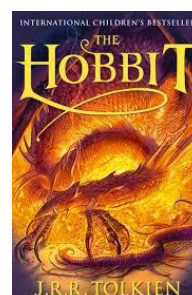

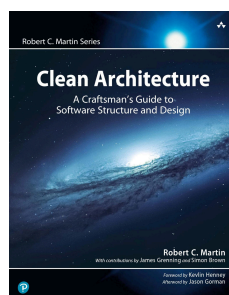

I'm a curious mind who seeks a deeper understanding of everything I dive into.

I prefer to minimize my time on social media, stay productive, and play games with friends.

I enjoy extreme sport (skiing/snowboarding, scuba diving, skydiving, bouldering)

---

## Favourite books

- Clean Architecture: A Craftsman's Guide to Software Structure and Design (Robert C. Martin Series)
- The Hobbit (J. R. R. Tolkien)
